#### **Cedarwood Oil**

# SECTION 1: Identification of the substance/mixture and of the supplier

Product name: Cedarwood Oil

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: \$25240A

Recommended uses of the product and restrictions on use:

**Manufacturer Details:** 

AquaPhoenix Scientific, Inc 9 Barnhart Drive, Hanover, PA 17331 (717) 632-1291

## **Supplier Details:**

Fisher Science Education 6771 Silver Crest Road, Nazareth, PA 18064 (724)517-1954

### **Emergency telephone number:**

#### **Fisher Science Education**

Emergency Telephone No.: 800-535-5053

#### **SECTION 2: Hazards identification**

### Classification of the substance or mixture:

### **Health hazard**

Aspiration hazard, category 1

### **Environmentally Damaging**

Chronic hazards to the aquatic environment, category 2

### **Irritant**

Skin irritation, category 2 Eye irritation, category 2A

Asp. Tox. 1.

Aquatic Chronic 2.

Skin Irritant, Cat 2.

Eye irritant, Cat 2.

Signal word: Danger

### **Hazard statements:**

May be fatal if swallowed and enters airways.

Causes skin irritation.

Causes serious eye irritation.

Toxic to aquatic life with long lasting effects.

#### **Precautionary statements:**

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Avoid release to the environment.

**Effective date**: 02.11.2015 Page 2 of 7

## **Cedarwood Oil**

Wash skin thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

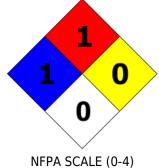

Collect spillage.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

Dispose of contents and container to an approved waste disposal plant.

#### Other Non-GHS Classification:

HMIS RATINGS (0-4)

## **SECTION 3: Composition/information on ingredients**

Ingredients:				
CAS 800-27-9	Cedarwood oil	100 %		
		Percentages are by weight		

## **SECTION 4: First aid measures**

# **Description** of first aid measures

#### After inhalation:

Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if cough or other symptoms appear.

# After skin contact:

Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

### After eye contact:

Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

#### After swallowing:

Rinse mouth thoroughly. Do not induce vomiting. Seek medical attention if irritation, discomfort, or vomiting

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 02.11.2015 Page 3 of 7

#### **Cedarwood Oil**

persists.

## Most important symptoms and effects, both acute and delayed:

Irritation. Headache. Nausea. Shortness of breath.

#### Indication of any immediate medical attention and special treatment needed:

If seeking medical attention provide SDS document to physician. Physician should treat symptomatically.

## **SECTION 5: Firefighting measures**

#### **Extinguishing media**

### Suitable extinguishing agents:

Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

## Unsuitable extinguishing agents:

No information available.

## Special hazards arising from the substance or mixture:

Thermal decomposition can lead to release of irritating gases and vapors.

#### **Advice for firefighters:**

## **Protective equipment:**

Wear protective eyeware, gloves, and clothing. Refer to Section 8. Use NIOSH-approved respiratory protection/breathing apparatus.

## Additional information (precautions):

Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing.

#### **SECTION 6: Accidental release measures**

### Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation. Ensure that air-handling systems are operational.

## **Environmental precautions:**

Should not be released into environment. Prevent from reaching drains, sewer, or waterway.

#### Methods and material for containment and cleaning up:

Wear protective eyeware, gloves, and clothing. Refer to Section 8. Always obey local regulations. Containerize for disposal. Refer to Section 13. If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Keep in suitable closed containers for disposal.

### Reference to other sections: None

## **SECTION 7: Handling and storage**

#### Precautions for safe handling:

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Do not eat, drink, smoke, or use personal products when handling chemical substances.

#### Conditions for safe storage, including any incompatibilities:

Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials.

#### SECTION 8: Exposure controls/personal protection

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 02.11.2015 Page 4 of 7

#### Cedarwood Oil

**Control Parameters:** No applicable occupational exposure limits.

**Appropriate Engineering controls:** Emergency eye wash fountains and safety showers should be available in

the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational

Exposure Limits-OELs) indicated above.

**Respiratory protection:** Not required under normal conditions of use. Where risk assessment

shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved

breathing equipment.

**Protection of skin:** Select glove material impermeable and resistant to the substance. Select

glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear

protective clothing.

**Eye protection:** Wear equipment for eye protection tested and approved under

appropriate government standards such as NIOSH (US) or EN 166(EU).

Safety glasses or goggles are appropriate eye protection.

**General hygienic measures:** Perform routine housekeeping. Wash hands before breaks and at the end

of work. Avoid contact with skin, eyes, and clothing. Before wearing wash

contaminated clothing.

## **SECTION 9: Physical and chemical properties**

Appearance (physical state, color):	Colorless to lig ht yellow, viscous liquid	Explosion limit lower: Explosion limit upper:	Not Determined Not Determined
Odor:	Characteristic odor	Vapor pressure at 20°C:	Not Determined
Odor threshold:	Not Determined	Vapor density:	Not Determined
pH-value:	Not Determined	Relative density:	0.95
Melting/Freezing point:	Not Determined	Solubilities:	Insoluble in water.
Boiling point/Boiling range:	279°C ( 534.20 ° F)	Partition coefficient (noctanol/water):	Not Determined
Flash point (closed cup):	110°C (230.00°F)	Auto/Self-ignition temperature:	Not Determined
Evaporation rate:	Not Determined	Decomposition temperature:	Not Determined
Flammability (solid, gaseous):	Not Determined	Viscosity:	a. Kinematic: Not Determined b. Dynamic: Not Determined
Density at 20°C:	Not Determined		

## SECTION 10: Stability and reactivity

#### Reactivity:

Nonreactive under normal conditions.

### **Chemical stability:**

Stable under normal conditions.

#### Possible hazardous reactions:

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 02.11.2015 Page 5 of 7

#### **Cedarwood Oil**

None under normal processing.

#### **Conditions to avoid:**

Incompatible materials, dust generation, excess heat, strong oxidants.

#### **Incompatible materials:**

Strong oxidizing agents.

Hazardous decomposition products: None

## **SECTION 11: Toxicological information**

#### **Acute Toxicity:**

Oral:

> 5,000 mg/kg LD50 Rat

Dermal:

> 5,000 mg/k LD50 Rabbit

Chronic Toxicity: No additional information.
Corrosion Irritation: No additional information.
Sensitization: No additional information.

Numerical Measures: No additional information.

Carcinogenicity: No additional information.

Mutagenicity: No additional information.

Reproductive Toxicity: No additional information.

## **SECTION 12: Ecological information**

**Ecotoxicity:** No additional information. **Persistence and degradability**:

No information available.

# **Bioaccumulative potential:**

No information available.

Mobility in soil:

No information available.

Other adverse effects:

No information available.

#### **SECTION 13: Disposal considerations**

## Waste disposal recommendations:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

### **SECTION 14: Transport information**

**US DOT** 

according to 29CFR1910/1200 and GHS Rev. 3

#### **Cedarwood Oil**

None of the ingredients are listed.

## **SECTION 16: Other information**

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
